

March 30, 2008

Dear Ms. Light and Ms. Sullivan,

Many thanks to you both and to Harris Corporation for your support of education. Specifically, I am very grateful for the bookcase and projector. These items will enhance student learning and make my job a little bit easier. I was able to pick up an electric typewriter and adding machine too, currently obsolete and obscure items to show my first grade class. They will enjoy using them and perhaps a seed will be planted in their minds how one machine/idea leads to newer, quicker creations. Thanks again for thinking of us.

With the greatest respect,

Ann Hinman and the teachers of Palm Bay Academy
